STAY SAFE.
KNOW THE FACTS.

WHAT ALL DRIVERS NEED TO KNOW ABOUT RAILROAD CROSSINGS

OPERATION LIFESAVER®
Rail Safety Education
OBEY ALL WARNING DEVICES AT RAILROAD GRADE CROSSINGS

KNOW THE FACTS:

IN THE U.S., A PERSON OR VEHICLE IS HIT BY A TRAIN EVERY 3 HOURS.

TRAINS ARE QUIETER AND FASTER THAN YOU THINK — ONLY TRAINS BELONG ON THE TRACKS.

THE AVERAGE FREIGHT TRAIN TRAVELING 55 MILES PER HOUR CAN TAKE A MILE OR MORE TO STOP — THE LENGTH OF 18 FOOTBALL FIELDS.

SEE TRACKS? THINK TRAIN!
MAKE SAFE CHOICES

CROSS LEGALLY AND SAFELY
The only safe and legal place for anyone to cross railroad tracks is at designated crossings. Always obey warning signs and signals. Always look for a train before proceeding.

WAIT, LOOK BOTH WAYS
Always expect a train. Trains may be closer and traveling faster than they appear and can run on any track at any time. Multiple tracks may mean multiple trains. Ensure you can clearly see down the tracks in both directions before proceeding. Avoid crossing while lights are flashing or gates are down. Never try to beat a train.

AVOID GETTING STUCK
Before crossing, be sure there is space on the other side to completely clear the tracks. Trains overhang tracks. When driving leave at least 15 feet between the front and rear of your vehicle and the nearest rail. Avoid shifting gears while crossing.

GET OUT! GET AWAY!
FIND THE BLUE AND WHITE SIGN
If your vehicle gets stuck or stalls at a crossing, get everyone out and far away immediately, even if you do not see a train. Call the number on the Blue and White Emergency Notification System (ENS) sign and share the crossing ID number with the dispatcher. No sign? Dial 911.
**KNOW THE SIGNS AND SIGNALS**

**MULTIPLE TRACKS**
Multiple tracks are present. Multiple tracks may mean multiple trains. Wait until you can see clearly down the tracks in both directions before proceeding.

**LOWER GATES AND FLASHING RED LIGHTS**
A train is approaching (even if you don’t see it yet). Do not proceed until lights turn off and gates go up. It is illegal and dangerous to go around lowered gates.

**PAVEMENT MARKINGS**
RxR and a wide white line on the roadway mean you are approaching a railroad crossing. Stay behind the white stop line while waiting for a train to pass. No stop line? Stop at least 15 feet from the nearest rail.

**LOW GROUND CLEARANCE CROSSING**
Raised crossing ahead. If you drive anything low to the ground — like a lowboy, bus, truck, sports car or trailer — you are at risk of getting hung up on the tracks. Do not proceed until you know your vehicle will clear the tracks.

**ADVANCE WARNING**
Slow down, look, listen and be prepared to stop. Typically, this is the first sign you see when approaching a railroad crossing.

**CROSSBUCK**
YIELD if a train is approaching. Trains always have the right-of-way.

**FLASHING RED LIGHTS**
STOP when flashing. DO NOT proceed until lights stop flashing. If lights begin flashing after you start across the tracks, keep going.

**EMERGENCY NOTIFICATION SYSTEM (ENS)**
This is the first phone number to call if a vehicle is stuck or stalls on the tracks. NOTE: Each sign has a different phone number and location ID number.

Also use the ENS to report people, vehicles or debris on the tracks, damaged signs or signals and obstructed views.
ABOUT OPERATION LIFESAVER:

OPERATION LIFESAVER IS A MISSION DRIVEN RAIL SAFETY EDUCATION NON-PROFIT POWERED BY DEDICATED PEOPLE. OUR GOAL IS TO END COLLISIONS, DEATHS AND INJURIES ON AND AROUND RAILROAD TRACKS AND TRAINS.

• Free in-person and virtual safety presentations across the U.S.

• eLearning programs for professional drivers, first responders and school bus drivers.

• Visit oli.org to schedule a presentation, find safety materials, become a volunteer and share public awareness campaigns, videos and more.

HELP STOP TRACK TRAGEDIES
