- Each year, hundreds of people are injured or killed while trespassing on railroad property in the U.S.
- Trains are faster and quieter than you think.
- Railroad tracks, bridges, trestles and yards are private property.
- You can be held liable for damage, injury or worse.
- It can take over one mile, or 18 football fields, for a train to come to a complete stop.
 Trains can't stop quickly, and they can't swerve!
- Sharing photos taken on or near the tracks might promote dangerous, illegal behavior.
